les 2/00 25 Doast. Jurvey office Washington 6. Mov. 21, 1859 A. Ingelmann Dear Ser, For a companison of the connected profiles The Continent of North Somerica, you will greatly oblige me by filling up the accompanying blank, as fail as you can conveniently do so, from such Railroad Profiles and other sources as may be accessible to zon. The headings of the barrows Columns will explain themselves. I would like you to state the probable accuracy of such results as you may send; and, besides having the reference of your Datum Plane to the level of the dear (or known points on livers or lakes, it will be of great-use to have the heights of intersections with other railroad loutes a lines of Survey. I should esteem it a favor to have as many points of the charasteristic summits, depressions and tablelands as you can conveniently furnish, which hill greatly oblige, Jours very les pectfully Superintendent-lb. S. Coast Survey. MISSOURI BOTANICAL
